

CECS 551
Assignment 6
Total: 15 Points

General Instruction

- Submit uncompressed file(s) in the Dropbox folder via Canvas (Not email).
-

1. (15 points) Write simple Python programs for Deep Learning.
 - (a) Find the book, *Deep Learning with Python*, using the *link*. You should be able to view full text with your CSULB credential.
 - (b) Read the chapter 5.1 and 5.2.
 - (c) Reproduce the example programs in the chapter 5.2; from `listing 5.4` to `listing 5.15` → `cnn.ipynb`
 - (d) Submit your `cnn.ipynb`.
